LANGUAGE

English - Fluent (C2)
French - Intermediate (B2)

EXPERIENCE

Lead Product Designer — *2024 - 2026*

Nabogo ApS, Carpooling scale-up I full-time

- Led a **UX strategy** initiative for the app that **improved our activation rate in Denmark by 1.5x** via a new onboarding flow.
- **Built a scalable AI-powered design system that reduced by 2x the number of UI components** of the product, significantly increasing prototyping speed and accelerating decision-making.
- Mapped and optimized user journeys, **reducing complexity by 50% across the two key user flows** to create faster and more intuitive experiences.

Lead Product Designer & Co-founder — *2022 - 2024*

Rotoy ApS, EdTech startup I Co-founder

- **Led a website re-design** with a bolder visual identity and new shopping experience that generated **2x more conversions**.
- **UX and UI Design**: Iterated on prototypes in close collaboration with developers and founders.
- **Built strong relationships** with teachers and parents to enable user testing with children, gather product feedback, and support meaningful collaborations.

UX / UI Designer — *2022 - 2024*

University of Southern Denmark I full-time

Designing and coordinating the implementation of a web intranet for the university's employees with the involvement of **300+ stakeholders**. Responsabilities include stakeholder management, staff workshops, interviews, usability testing at different stages, Figma prototyping, and collaborating with development. **The new intranet has 50% less pages and a new navigation that enables employees to search for information and services faster.**
